Agreed. We only responded to So Kim's request for an immediate sign installation. Since the original 2 signs were installed (before the one in your attached photo), we had two incidents of vandalism. We replaced both of those vandalized signs with 2 new *Area Closed* signs that were cemented in place.

Subject: FW: Lot D clearing?

Just an fyi…I'm not sure if we can do anything to prevent people from trespassing until the new plantings are installed and it looks like something that shouldn't be walked on.

Subject: Lot D clearing?

Hi Lili-

I heard that all the vegetation on Lot D except for the lemonade berry has been recently removed. Are you preparing to do the installation of the irrigation and planting soon per the attached plan? I'm just concerned that if the rainy season comes before the plantings are installed, we will have erosion off that site. Also, now that there is no vegetation, even though Rec and Parks Staff installed a sign to prevent people from trespassing through this area, (attached) that it appears that a lot more people are now walking through this area. Please let me know, thanks.

Sincerely,

Amy Seeraty
